XENON²

LIGHTWEIGHT,
HIGH-PERFORMANCE,
FOLDING SERIES

WHETHER YOU'RE LOOKING FOR
THE VERY BEST IN DRIVING DYNAMICS
OR THE MOST COMPACT FOLDING
DIMENSIONS, THERE'S A XENON² JUST FOR YOU.

LIGHTEST FOLDING WHEELCHAIR ...IN ITS CLASS*

How do you achieve a folding wheelchair that weighs as little as 20 pounds? By using premium frame materials like 7000 series aerospace aluminum and an innovative process that's exclusive only to QUICKIE® – ShapeLoc Technology.

UNRIVALED FOLDING PERFORMANCE

At the core of the XENON² is a unique cross-brace that fits so neatly under the seat it's barely noticeable – giving a very minimalistic, open-frame feel that you'd usually associate with a rigid wheelchair.

* Class is defined as: aluminum folding wheelchairs (North America).

AVAILABLE IN 3 MODELS:

XENON² FIXED FRONT
THE LIGHTEST

XENON² HYBRID (DUAL TUBE)
THE STRONGEST

XENON² SWING-AWAY
THE ALLROUNDER
